

# ...with a Highly Commended recognition for Innospec Inc.

The judges were keen to recognise the achievements of Innospec for the Sustainability award so awarded a Highly Commended recognition.

Innospec have recognised brilliantly the importance of People in the "People, Planet, Profit" triangle of sustainability. The corporate commitment to volunteering was recognised as being an exemplary practice that other organisations could imitate for their own sustainability agendas.

Innospec are a NASDAQ-listed (IOSP) global specialty chemical company that focuses on bringing new, innovative technologies to their customers. With approximately 2,000 employees in 23 countries, they manufacture and supply a wide range of products through their four business units: Fuel Specialties,

Performance Chemicals, Oilfield Services and Octane Additives.
