

Atlas Copco Rental UK

Atlas Copco Rental UK is a leading provider of temporary, cost-effective and energy efficient solutions for long- or short-term demands, planned maintenance or emergencies.

Our state-of-the art fleet includes 100% oil-free compressed Air, Nitrogen generators and Steam Boilers. With Decades of experience operating in all sectors of industry, we have developed a total solution concept. We work in partnership to deliver the exact solution that meets your requirements.

With Atlas Copco Rental, you always get more than a machine. Our team harness their industry experience to analyse your situation and design a total rental solution to meet your requirements. In addition, we provide access to 24/7 service and maintenance to make sure your equipment always performs optimally.

To ensure seamless integration and maximum productivity, we also offer a breadth of supporting services. This includes contingency planning; freight and logistics; installation, commissioning,

and decommissioning; fuel and energy management; onsite operators; training and supervision.

We offer:

- 100% Oil Free Air compressors (Electric or Diesel) individual units up to 1600 cfm flow and pressures up to 25 Barg
- Nitrogen Generators capable of 99.99% purity.
- Dual Fuel Steam Boilers from 1,300 kg/hr to 16,000 kg/hr with working pressures up to 25 Barg
- Steam Superheaters (Electrical, Integrated and Fired)
- Plus many other ancillaries to compliment all of our key products.

We make our agility count to ensure you have a total solution and peace of mind for any situation.

You can be confident in our quality of service, environmental care and personnel safety which are guaranteed by our triple ISO certification.

The Atlas Copco logo is displayed in a stylized, blue, cursive font. It is centered between two horizontal blue bars of equal length, all contained within a white rectangular border.
