

Simplifying solar.

Independent, impartial support to accelerate your solar potential.
Investing in solar can be complex, but you don't have to navigate it alone.

Our complimentary service will help you develop a specification to meet your organisation's needs. We connect you with professional, expert suppliers, ensuring you procure the best technology for your business, provided by the best partner.

"Green Economy helped us progress our solar project.

They clarified what the project should cost, buyback periods and funding pathways, and then introduced us to three suppliers, mediating the conversation to give us confidence we were working with the best partner."
